Smart Moves in Water

Offering a variety of solutions to learn to swim program leaders. We are all parents who are passionate about children and learning. We want kids to have fun in the water, and really enjoy their learning to swim experiences.

Smart Moves aims to provide access to quality knowledge and resources, to improve the quality, consistency and appropriateness of what is taught in the water.

We believe that this will provide a better experience for children, parents and teachers - children will love swimming and will be safer in and around water.

- See our SMART PLANNER: knowledge base, lesson creation wizard, training aids, & more
- See our SMART SUPPORT: work with you one-on-one in person or a video conference call
- See our SMART STUFF: Teaching products

Jenny McPhail and also participating in WABC2011 and representing the company are **Mike Fitzgerald, Pam Berry-Mason, & Todd Mason**

Swim Lessons University

Since 2010, Swim Lessons University has provided Swimming Instructor Training & Certifications that are endorsed by WABC. The video based training is turn-key, and you can administer it in the convenience of your facility. Your instructors also can do all their testing online.

The program is flexible too! You can use Swim Lessons University certifications as either as a supplement to the instructor training you are already doing OR as an alternative!

The Swim Professor and Swim Lesson University are your guaranteed blue print for teaching children to swim. The Swim Professor, Jim Reiser has created a wide variety of products that can help you improve the teaching - learning process in your learn to swim program.

Products range from DVD's demonstration teaching strategies to print materials such as lessons plans & water safety materials to learning equipment for you to use as well as sell to your program.

Jim Reiser, M.S. The Swim Professor

Swim Whisperers™

**Do you work with children
who have Sensory
Processing or Motor
Coordination difficulties?**

Let SWIM WHISPERERS decrease the time needed to teach these children to swim. Our upcoming videos will help you overcome the most common obstacles encountered by children with a wide range of processing issues by focusing on 14 key areas :

Safety concerns
Water properties related to sensory systems
"I can't touch that!"
Making a child go underwater successfully
"What did I say?"
"How do I control my body?"
"I'm not going on my back!"
Seeking sensory input
Petrified to let go of the side
Engagement and interaction
Reacts extremely when getting splashed
Excessive drinking of the pool water
Ritual and routine to increase comfort
Success with swim strokes

Swim Whisperers is a product of Angelfish Therapy®, owned/operated by Cindy Freedman CTRS, MOTR & Ailene Tisser MA, PT.
